WHO WE ARE

“We’re the people who let everyone play sport, rain or shine”

We are huge sports fans and were sick of seeing pitches waterlogged every weekend, so we decided to do something about it.

We set up PST Sport with the view to building world-class artificial grass pitches, providing the highest levels of customer service while staying true to our values; integrity, transparency and quality.

PST Sport is a one-stop shop for any club, school or sporting organisation considering building a new artificial grass pitch or resurfacing an existing one. We work alongside our clients’ design teams as well as offering the ‘PST Design & Build Service’.

Innovation has been a huge factor in our success to date. Years of research and development has delivered a pioneering artificial grass surface and new pitch subbase design, making a PST Sport pitch unique and more technologically advanced than all others.

We are passionate about what we do and to date have constructed over 250 artificial grass pitches in Ireland and the UK. The installation of a FIFA Quality PRO pitch at Chelsea FC’s Cobham Training Ground in 2016 was a considerable milestone in the PST Sport story. Two years later, when Munster Rugby called, PST Sport answered, delivering a state-of-the-art World Rugby Approved pitch at Irish Independent Park in Cork.

Our extensive portfolio includes over 25 FIFA certified artificial grass fields as well as multiple pitches tested and approved to World Rugby, GAA and FIH. My own view is nothing can beat a high quality, well maintained natural grass pitch, but what we install is the next best thing. Our synthetic turf systems and pitch foundations are the most advanced in the market, anywhere in the world.

Colin Teahon

MANAGING DIRECTOR

OUR VISION

Our vision is to be the industry leader in synthetic grass installations across Ireland and the UK. Our main priorities are customer satisfaction, delivering an unrivalled product and service, and to help create a healthier, more sports focused society.

OUR MISSION

PST Sport is a social impact organisation promoting lifelong health and wellbeing. Our mission is to be part of sports development at a grassroots level and to help enhance the lives of people through the provision of world-class, year-round sports facilities.

OUR VALUES

INTEGRITY, TRANSPARENCY & QUALITY ✓

We are committed to achieving the highest level of **CUSTOMER SATISFACTION** ✓

Our greatest strength is our dedicated and highly **SKILLED TEAM** ✓

A **PASSION** for **PERFORMANCE** ✓

Your Pitch, Our Passion

MUNSTER RUGBY
IRISH INDEPENDENT PARK, CORK

10,500 sq/m World Rugby Approved

“ After careful consideration, Munster Rugby decided in early 2018 to convert the natural grass pitch at Irish Independent Park to an artificial grass surface. This was a huge decision for the province and choosing the right company to carry out the project was critical. After a competitive tender process where World Rugby Approved consultants were engaged to assess product quality, PST Sport came out on top.

Our experience with PST has been superb – they are definitely the best contractor we have dealt with in Irish Independent Park. Nothing has been an issue and they have hit every deadline and promise.

PST Sport, along with their manufacturing partner CCGrass designed a bespoke artificial grass product specifically for Munster Rugby. The feedback from both professional and amateur players alike has been fantastic.

We would absolutely recommend PST Sport for any club or school considering installing an artificial grass pitch.

PHILIP QUINN,
HEAD OF FINANCE & OPERATIONS,
MUNSTER RUGBY

PST Sport’s ‘**Superb 60**’ installed at Irish Independent Park is the very latest in synthetic turf technology; it is the first of its kind World Rugby Approved pitch. The surface is extremely durable, resilient, soft to touch, controls infill splash and ultimately designed with maximum player safety in mind. While the pitch surface is unique, below the turf is equally important and PST Sport have pioneered a new dynamic pitch subbase and irrigation system ensuring maximum longevity and stability of the pitch.

“ To meet the vision of Munster Rugby the pitch had to be the very best. With two years of design works coming to fruition in 2018, our Munster Rugby pitch is like no other in terms of its make-up. This new state-of-the-art pitch will allow Munster players of all ages to play on the same surface as their heroes, year-round, and whatever the weather.

COLIN TEAHON, MANAGING DIRECTOR,
PST SPORT

HOW WE CAN HELP

More and more clubs and schools are seeing the huge benefits of investing in an artificial grass pitch. A high-quality artificial grass carpet, correctly installed, is key to player performance and impacts how athletes train and develop.

WHAT WE DO

PST Sport design and build state-of-the-art sports surfaces, from full-size pitches to training areas that stand up to the challenges of all sporting codes.

With in-house expertise across each facet of pitch construction including groundworks and drainage, fencing, sports netting and floodlight systems, we can provide a complete turnkey solution for any new all-weather pitch project.

By owning a fleet of plant and machinery along with highly skilled drivers, operators and installers employed directly by PST Sport, we can monitor and manage our quality control system and abide by the standards set down in our company's ISO 9001 and ISO 45001 policies.

In terms of surfaces, our artificial grass manufacturing partner, CCGrass, is one of only four companies worldwide with Preferred Producer status for FIFA, World Rugby and FIH as well as multiple systems designed to meet the requirements set down by the GAA.

PST Sport are pioneers in terms of pitch base construction with ongoing research and development in-house perfecting the

pitch base. We offer a tailor made solution unlike any other available in the market.

Our design services include planning advice, site surveys, detailed specifications, health and safety plans, construction drawings and much more. This is complemented by a world-class approach to building an artificial grass pitch.

Our dedicated team will oversee your project focusing on quality, safety and keeping you updated every step of the way.

Fingal County Council approved PST Sport as the design and build company for the development of a full-size 13,500 sq/m artificial grass pitch at Le Chéile Secondary School in Tyrrelstown, Co. Dublin. For this particular project we took on a design and build role and worked seamlessly with Principal Contractors, Glasgiven Contracts Ltd. who were the main contractors for Tyrrelstown Educational Campus.

LE CHÉILE SECONDARY SCHOOL TYRRELSTOWN, CO. DUBLIN

13,500 sq/m GAA, FIFA and World Rugby Approved

THE MOST ADVANCED SYNTHETIC TURF FOR FOOTBALL, RUGBY AND GAA

PST Sport, along with our partner CCGrass, have developed a game changing artificial grass sports surface called Superb - the product of choice for clubs such as Munster Rugby, St Vincent's GAA, Carrigaline United FC, London's Club Des Sports and many more.

Superb has unrivalled characteristics, including an industry high dtex of 17,000, diamond shaped blade 400 micron wide, PU backing, a C8 polymer compound and successful Lisport wear testing up to 500,000 cycles. These unique qualities, when combined, allow CCGrass and PST Sport to offer an extended warranty of 12 years - 4 years more than the industry norm of 8 years.

Whilst soft to touch and feel, the Superb blade is still highly resilient and therefore will stand up longer, improving player performance and make maintenance easier.

Available in different pile heights, with a secondary thatched or fibrillated yarn when required, Superb has revolutionised the artificial grass industry for clients with FIFA, World Rugby and GAA synthetic pitch requirements.

From subbase construction to the artificial grass surface, PST Sport leads the way amongst CCGrass clients in over 110 countries.

.....

Building better bases

We build pitches from the ground up. The project below ground is just as important as what goes on top. A well-built base is critical to pitch longevity.

Artificial Grass and Infill
Blinding Layer
Subbase
Shock Pad
Levelling Layer
Drainage Pipe

PST Sport took a lead in the design development of the pitch and proactively engaged with all stakeholders and brought to the table cost effective and workable solutions without compromising on safety, quality or programme.

PST Sport completed this project safely on time, within budget and to the highest standards. The standard of finish achieved by PST Sport on the pitch is exemplary and is a credit to the management and operatives who we found to be courteous, knowledgeable and driven.

WHY CHOOSE PST SPORT?

DESIGN & BUILD CONTRACTOR

PST Sport offers a complete design and build service supported with a professional indemnity insurance policy protecting our clients' investment now and into the future. We look at our clients' needs and tailor a pitch design around this, ensuring maximum value for money and return on investment.

ARTIFICIAL GRASS PARTNER

PST Sport's artificial grass partner is CCGrass, the world's leading manufacturer of synthetic turf and one of four companies with Preferred Producer status for FIFA, World Rugby and FIH. CCGrass operate in over 110 countries and PST Sport won their prestigious Brand Elite Network Award in 2018.

COMPLETE TURNKEY SOLUTION

PST Sport provides a comprehensive range of services, including planning advice, design, state-of-the-art pitch construction, project management and testing.

QUALITY, HEALTH & SAFETY

Quality is one of PST Sport's core values and an integral part of our organisation. PST Sport's Quality, Health & Safety Management System is built on the premise of 'do it once, do it right'. All parts of a PST Sport pitch are monitored in an appropriate way.

SUBBASE CONSTRUCTION

The work below ground is a critical element in constructing an artificial grass pitch to guarantee its longevity. Issues with levels and drainage capacity in an aging pitch subbase is common place in the artificial grass pitch industry. PST Sport have developed a pioneering subbase design ensuring pitch stability for the long term and removing all uncertainty pre-construction. Many pitch bases are built without taking existing ground conditions into account. PST Sport are using innovative ground testing methods combining science and mathematics to design our pitch subbase. The outcome of which ensures the long-term stability of a PST Sport pitch.

RESEARCH & DEVELOPMENT

With a progressive attitude towards innovation, PST Sport is focused on ongoing research and development. From drainage to subbase construction to the artificial grass surface, our company is constantly innovating.

HIGHLY SKILLED TEAM

With in-house expertise across each facet of pitch construction, our highly skilled team have the experience and technical ability to deliver a world-class artificial grass pitch.

WARRANTIES

PST Sport provide the most comprehensive warranties in the artificial grass pitch industry both in terms of manufacturer and PST Sport's workmanship warranty.

BECKETT PARK, CHERRYWOOD CO. DUBLIN

.....

In 2017, PST Sport was selected to design and build a 7,000 sq/m **FIFA Quality** pitch, 6 **ITF Approved** artificial grass tennis courts, bowling greens and a 600 sq/m multi-use games area at Beckett Park - a 13-acre recreational park and part of the Cherrywood development. Cherrywood is Dublin's most significant building project in recent years. Along with **FIFA Quality** certification, the 3G pitch was successfully tested to **World Rugby** and **GAA** standards.

CLUB DES SPORTS, EAST ACTON, LONDON, UK

The exclusive Club Des Sports in West London has been one of PST Sport's most diverse projects to date. A design and build project including a 9,000 sq/m FIFA Quality/World Rugby/GAA Approved synthetic grass pitch, 3,800 sq/m pitch installed to a FIFA Quality PRO standard, ECB Approved cricket wickets, a state-of-the-art sports pavilion, extensive roadways, car parks, pitch and street floodlights.

Having been out to tender for a 9,000 sq/m synthetic grass pitch, I contracted the job to PST Sport for a number of reasons: technical knowledge, hands-on approach, can-do attitude and evident quality of product. The job has been delivered on time and on budget, without any issues whatsoever. The acid test of any contractor's performance is would I use them again? In this case, I will and I am.

**DAN WHITE, MANAGING DIRECTOR & OWNER,
CLUB DES SPORTS**

MULLINGAR RFC, CO. WESTMEATH

World Rugby Approved artificial grass facility at Mullingar RFC. This extensive project included full-size and training pitches including groundworks, shock pad, 60mm carpet and fencing. Such was the quality of the surface it has also met the requirements of other sports governing bodies.

The artificial grass/shock pad combination used provides optimal energy restitution. Feedback on the surface was hugely positive from the men's Irish Rugby team who camped there during the 2016 Six Nations.

After a competitive tender process among eight companies a detailed post tender analysis was conducted. PST Sport emerged as the successful contractor and we are delighted that decision was reached. PST Sport delivered a first-class installation on time and within budget and demonstrated excellent technical ability. Feedback from players and coaches has been impressive. The Irish Rugby team trained on the pitch for the week prior to the Ireland v England Six Nations match in 2016. Several players commented that it was the best artificial grass surface they had played on and Joe Schmidt compared the pitch to the Twickenham surface. I would highly recommend Colin, Ger and their team to any organisation looking to install an artificial grass facility.

**BRENDAN LEAHY, PROJECT MANAGER,
MULLINGAR RFC**

LARKVIEW BOYS FC, DUBLIN

7,800 sq/m FIFA Quality Approved

“ PST Sport looked after everything from design to completion. Even when we spotted opportunities to enhance the design during installation, PST Sport always had a practical, cost efficient solution with no fuss, and there was no attempt to overcharge for extras. Over the life of the installation I have come to implicitly trust PST Sport and have huge faith in their work. PST Sport were an excellent choice for us as a partner to develop the club's facilities. Their passion matched our own ambition to have the very best.

MARK CASLIN, DDSL SECRETARY,
LARKVIEW BOYS FC

”

CRUMLIN UNITED FC, DUBLIN

6,350 sq/m artificial grass pitch

“ We had PST Sport re-surface our old astro pitch. We were blown away by the results. The new pitch was a massive step up in quality and all visitors to the pitch, especially players, have been full of praise for the new facility. PST Sport were very easy to work with and we were very impressed with their efficiency and work ethic. The pitch is something we are proud of at the club and we are very happy with our decision in choosing PST Sport.

MARTIN LOUGHRAN, FORMER CHAIRMAN,
CRUMLIN UNITED FC

”

CLONGOWES COLLEGE, CO. KILDARE

9,000 sq/m World Rugby Approved

“ Not only were PST Sport price competitive, they also offered a value-added service incorporating upgrades to our existing floodlight system and a higher than standard specification carpet. We are delighted with the outcome. I would highly recommend PST Sport as a professional and knowledgeable partner with the capacity to deliver a project on time and to budget with very little fuss.

CHRIS LUMB, HEADMASTER,
CLONGOWES WOOD COLLEGE

”

CARRIGALINE AFC, CORK

8,000 sq/m FIFA Quality Approved

“ The installation of a second full-sized all-weather pitch at Ballea Park was a major ambition for our club given the ever-increasing demands for pitch space from a growing membership. It was imperative that we got the best possible product at the best possible price. After extensively reviewing their previous projects, we satisfied ourselves that PST Sport were best placed to meet our needs. At no point during the installation of the pitch did we have any reason to doubt our decision. The work was conducted in a very professional manner and all of the PST Sport team were easy and pleasant to deal with. The new pitch has a real wow factor and is a fantastic asset for our community. We are very happy to recommend PST Sport.

TIMOTHY MAWE, HONORARY TREASURER,
CARRIGALINE UNITED AFC

”

CHERRY ORCHARD FC, DUBLIN

6,350 sq/m FIFA Quality Approved

“ We can testify to PST Sport's ability to provide a full turnkey solution from start to finish. Including all aspects of the project from above and below groundworks, fencing, netting, floodlights and a FIFA Certified all-weather playing surface. By partnering with PST Sport we have been able to achieve our aim with the minimum of fuss. This is exemplified by the company's willingness to work with us and to find solutions to any problems that arose during the process. On the basis of our experience, I would strongly recommend PST Sport to any prospective client where their capacity to deliver will satisfy the highest expectations.

TOM KENNEDY, CLUB CHAIRMAN,
CHERRY ORCHARD FC

”

CAPPAGH PARK, GALWAY CITY

7,530 sq/m FIFA Quality Approved

“ Following a public procurement competition, PST Sport, after a full evaluation and pre-qualification process were chosen as the successful bidder to undertake the construction of a new state-of-the-art FIFA full-size synthetic soccer pitch for Galway City Council at Cappagh Public Park, Knocknacarra, Galway. PST Sport, led by Colin and Ger, in conjunction with our sports field consultants Sports Labs Ltd. UK, successfully delivered the project on schedule and within budget. The facility has been constructed to a high standard. We have no hesitation to recommend PST Sport, for any similar projects and have no doubt we will, I hope, work in a similar fashion on future projects.

STEPHEN WALSH,
SENIOR EXECUTIVE PARKS SUPERINTENDENT,
GALWAY CITY COUNCIL

”

HIGH PERFORMING ARTIFICIAL TURF FOR HOCKEY

Artificial grass pitches have become almost essential in the game of hockey. International fixtures and club matches are now played on synthetic surfaces. PST Sport's hockey surfaces are fast, flat and consistent, designed specifically for a more skilful game and are certified for both amateur and professional games at all levels.

As an FIH Preferred Hockey Producer, CCGrass launched the FastPro series with multiple systems tested and approved to FIH standards, both sand dressed and water based. This innovative product range offers maximum performance and enhanced durability as well as improved player safety. Product features include:

- 100% PE curly monofilament
- Player friendly with unsurpassed comfort
- Extreme UV stability and durability
- Optimum ball/surface interaction
- Dense stitch for compact appearance
- Smooth surface for great playability
- Aesthetic colour innovation

The installation of a hockey field requires a highly skilled, experienced and dedicated team - qualities that PST Sport have proudly become renowned for.

ARTIFICIAL GRASS PITCHES FOR SCHOOLS

When students are physically fit, they will achieve more academically. Sport develops a sense of friendliness amongst students and builds their team spirit. It helps children to develop mental and physical toughness. None of this is possible however, without suitable sports facilities.

PST Sport specialise in the installation of artificial grass pitches and play areas for schools that are accessible all year round. With countless success stories across Ireland and the UK, PST Sport is a trusted brand in the educational sector.

PST Sport take a practical approach looking at important factors such as; what space is available, what sports are likely to be played, is planning permission required, is the facility to be rented after school hours, can the project be built in phases and so on. Years of experience and knowledge allow PST Sport to tailor a package that will meet your school's needs and budget.

Whether we are resurfacing an existing tarmac basketball court or building a new pitch, PST Sport can transform your

school's facilities improving students' quality of life with our cutting-edge artificial grass solutions.

We work with schools' appointed architects or engineers and also provide a PST Sport design and build service. With the latter, our experienced personnel carry out detailed surveys assessing existing ground conditions, detailed construction drawings are provided, the facility is built to the highest standards and independently signed off by our chartered engineer.

Providing excellent customer service to schools has been the corner stone to PST Sport's success. After sales is a key part of this. Simply put, if there is an issue in the future, we will fix it.

Referrals from existing school clients is a core part of our business process. PST Sport are industry leaders and we always ask potential new clients to speak to school principals, teachers or those on the boards of management involved in our previous projects.
